

# Perrigo Drugs

Perrigo Drugs distributes medicines in off-brands to stores such as Target and Walmart. This store has bargains and worth the drive!! All of the products are off-brands (not name brands like Tylenol or Sudafed). Every box tells you what it compares with. It would be just like buying the Meijer brands of a product. Before buying note the expiration dates, some are coming up soon but most still have a year to two. If the expiration date is soon on the front box, look at the back of the shelf - the dates can be better.

Perrigo is at 300 Waters Street in downtown Allegan. Take 131 South and get off at the Allegan exit (exit 55) and go West (right) towards Allegan (street is called 116<sup>th</sup> Avenue or West M222). This street takes you right into Allegan, about 10 miles. After crossing the bridge in town, the next street on your left (between two gas stations) is Waters. Turn left, Perrigo is just down the street on your left in a brick building. It takes approximately 40 minutes to get there from Grandville. The store is not very big. It opens at 11:00 and is usually quite busy for about 15 minutes so I would suggest going after 11:30, especially if you have a stroller.

**Phone number: 1-269-673-8451                      Hours: Monday-Friday 11:00-5:00**

**There is a limit of 6 of each *different* sale item each day (yellow sticker).**

**The store does accept checks or cash, but NOT credit cards.**

Here are some of the deals to be found in October of 2007 (can be different each time):

These are just some of the bargains to be found. Before you go, make a list and if it's vitamins or something different, check out prices here first so you can compare. Not everything at Perrigo is necessarily a bargain (like Zinc lozenges were the same price as Meijer). **CHECK EXPIRATION DATES** on what you buy. The store also carries mouthwash, toothpaste, lotions, vitamins, Lactaid tablets and a multitude of different cough syrups, cold medicines and aches and pain meds, etc.

If you go, think about calling a friend to go along or pick something up for a couple friends or neighbors. This is a great way to save money, especially with younger children who use a lot of vitamins and Tylenol products.
